

## CUBA ALONE IS CONSIDERED.

President's Message Deals With Duty of This Country Toward Island.

He Suggests That Interests Are Reciprocal and That There Should Be No Delay in Making Promises Good.

Washington, Nov. 10.—At 10 30 o'clock today the joint committee of the senate and house of representatives appointed to notify the president that congress was organized and ready to receive any message he might have to communicate to it, called at the White House to perform its duty. Republicans Tawney, of Minnesota, Capron, of R. I. and Williams, of Mississippi, comprising the committee arrived first. They were followed soon after by the senate committee consisting of Senator Hoar, of Massachusetts and Gorman, of Maryland, accompanied by the sergeant at arms of the senate, Daniel M. Randall. President Roosevelt received the joint committee in his private office. Senator Hoar presented to the president the formal notification. After greeting the members of the committee cordially, the president informed them that he would communicate with congress very soon in writing. Among the early callers on the president today were Speaker Cannon. As usual, he walked to the White House and was admitted immediately to the president's office. The president cordially congratulated him upon his election as speaker. The interview lasted only a few minutes. Speaker Cannon leaving the executive offices for the capitol accompanied by Representative Littlefield, of Maine.

The Senate and House of Representatives have convened the congress that may consider the legislation necessary to put into operation the commercial treaty with Cuba which was sent to the senate at its last session and subsequently by the Cuban government. I deem such legislation demanded not only by our interest but by our honor. We cannot with propriety abandon the course upon which we have so wisely embarked. When the acceptance of the Platt amendment was required from Cuba by the action of congress of the United States, this government thereby committed itself to the policy of treating Cuba as occupying a unique position as regards this country. It was provided that when the island became a free and independent republic she should stand in such close relations with us as in certain respects to come within our system of international policy, and it necessarily followed that she must also to a certain degree become included within the lines of our economic policy. Situated as Cuba is, it would not be possible for this country to permit the strategic abuse of the island by any foreign military power. It is for this reason that certain limitations have been imposed upon her financial policy and that naval stations have been conceded by her to the United States. The negotiations to the details of these naval stations are on the eve of completion. They are so situated as to prevent any idea that there is the intention ever to use them against Cuba, or otherwise than for the protection of Cuba from the assaults of foreign foes and for the better safeguarding of American interests in the waters south of us.

These interests have been largely increased by the consequences of the war with Spain and will be still further increased by the building of the isthmian canal. They are both military and economic. The granting to us by Cuba of the naval stations above alluded to, is of the utmost importance from a military standpoint and is proof of the good faith with which Cuba is treating us. Cuba has made great progress since her independence was established. She has advanced steadily in every way. She already stands high among her sister republics of the new world. She is loyally observing her obligations to us and she is entitled to like treatment by us.

The treaty submitted to you for approval secures to the United States economic advantages as great as those given to Cuba. Not an American interest is sacrificed. By the treaty a large Cuban market is secured to our producers. It is a market which lies at our doors which is already large and which is capable of great expansion and which is especially important to the development of our export trade. It would be indeed short sighted for us to refuse to take advantage of such opportunity and to force Cuba into making arrangements with other countries to our disadvantage.

This treaty stands by itself. It is demanded on consideration of broad national policy as well as by our economic interest. It will do harm to no industry. It will benefit many industries. It is in the interest of our people as a whole both because of its importance from the broad standpoint of international policy and because economically it intimately concerns us to develop and secure the rich Cuban market for our farmers, artisans, merchants and manufacturers. Finally it is desirable as a guaranty of the good faith of our nation towards her young sister republic to the south whose welfare must ever be closely bound with ours. We gave her liberty. We are knit to her by the memories of the blood and the courage of our soldiers who fought for her in war, by the memory of the wisdom and integrity of our administrators who saved her in peace and who started her so well on the difficult path of self-government. We must help her onward and upward and in helping her we shall help ourselves. The foregoing considerations caused the negotiation of the treaty with Cuba, and its ratification by the senate. They now with equal force support the legislation by the congress which by the terms of the treaty is necessary to render it operative. A failure to enact such legislation would come perilously near a repudiation of the pledged faith of the nation.

I transmit herewith the treaty, as amended by the senate and ratified by the Cuban government.

White House, November 10th 1903 (Signed), THEODORE ROOSEVELT

### HOUSE

Goos Through Usual Routine of Receiving the Message.

Washington, Nov. 10.—Speaker Cannon called the house to order promptly at 12 o'clock, the hour fixed for the beginning of the daily sessions.

Following the reading of the journal Chas. W. Thompson, of Allegheny, was sworn in as a member of the house.

Mr. Harnes, assistant secretary to the president, bearing a message from the president was announced. The president's message was then read and was received with applause from the republican side, and referred to the proper committee.

Following its reading the speaker announced the following committees: Rules—the speaker, Dalzell, (republican, Pa.) Grosvenor (rep., Ohio), Williams (dem., Miss.) Mileage—Reeder (Kans.) Jackson (Md.), Mack (N. Y.), Lewis (Ga.), Butler (Mo).

The first three are republicans and the last two, democrats.

Resolutions of respect to the memory of Mr. Forderer, of Penna., and Mr. Boring, of Kentucky, were adopted and as a further mark of respect the house at 12:27 adjourned.

### GRAND JURY FOUND THAT

Five Men Were Implicated in Shooting Up the Home of a White Man.

Sandusky, O., Nov. 10.—The grand jury today returned indictments against five Perkins township men for alleged complicity in the "Shooting up" of the home of George Gunther some weeks ago. Their names were withheld until arrests are made. In addition, the report says a number of witnesses called in the case perjured themselves.

George Gunther, white, some weeks ago married a negroess. Whitecaps twice visited his home at night. The first time they ordered him to leave the country. The second time they shot out all of the windows in his house, and Gunther and his wife barely escaped with their lives.

### HEARING POSTPONED.

New York, Nov. 10.—The hearing in the affairs of the United States Ship building Co., which was to be resumed today was postponed until Thursday owing to the illness of one of the attorneys. Mr. Nixon's examination will then be continued.

### WARRANT GRANTED FOR REMOVAL OF BEAVERS.

New York, Nov. 10.—A warrant for the removal to the eastern district of New York of Geo. W. Beavers, accused of postal frauds, was granted today, by Judge Holt in United States district court, upon the application of Assistant United States District Attorney Wise. It is said, however, that it is not probable that Beavers will go immediately to Brooklyn, as an appeal will be taken to the higher federal courts.

### WILL DEDICATE MONUMENT.

Chattanooga, Tenn., Nov. 10.—Gov. Pennypacker and party spent today at Chickamauga, and leave tonight for Johnsonville, where they will take a steamer for Shiloh. On that field a monument will be dedicated tomorrow to the memory of a Pennsylvania regiment.

### WOUNDED OFFICER IS TAKEN TO PITTSBURG.

Dorona, Penna., Nov. 10.—Officer Isaac Johnson who was shot in the abdomen during a fight with Italians last night was sent to the homeopathic hospital in Pittsburgh today. His condition is critical. The excitement has entirely subsided and the hearing of the Italians are proceeding quietly.

## COLOMBIAN COMMISSION

Will Receive no Consideration From Germany in Return for Lands.

France Has Officially Recognized the De Facto Panama Government, by Instructions Given Its Consul Similar to Those Sent to the U. S. Minister.

Berlin, Nov. 10.—The Colombian commission, if it comes here, will receive no consideration from the German government. The statements regarding our commercial interests in Colombia and Panama have been much exaggerated, but we hope to see our trade there prosper better after the United States controls the canal.

### French Give Recognition.

Paris, Nov. 10.—The French government has recognized the De Facto government of the Republic of Panama.

The instructions being forwarded by Foreign Minister Delcasse to the French consul at Panama, authorizing him to have relations with the new government. The instructions are substantially the same as those sent from Washington to the United States consul at Panama and will have the effect of giving the same recognition of the new regime as the United States has already given.

## EAST BOUND VESSELS ARE

Crowded With Foreigners Going Home. Retrenchment and Strikes the Cause.

New York, Nov. 10.—Thousands of immigrants who arrived at this port in the early months of this year are now crowding the east bound steamships in their efforts to return to their native lands. Never before have so large a number sought return passage.

Business retrenchment, industrial strikes and the fact that many again wish to see their native lands are the reasons as viewed by the agents for the exodus.

### REFUSAL CAUSED SENSATION.

Vienna, Nov. 10.—It is announced in a dispatch received here from Belgrade that the British charge d'affaires there yesterday refused to receive the congratulations of the King Peter's government.

## MARCORIS HAS BEEN BOMBARDED.

State Department Receives Notice of the Town's Partial Destruction by Shell. American and German Vessels Will Act.

Washington, Nov. 10.—The state department today received another belated despatch from United States Minister Powell, at San Domingo City dated the sixth inst. The minister says Marcoris has just been bombarded by a San Domingo naval vessel and partially destroyed. The ship then returned to San Domingo city. The American interests are very considerable.

Marcoris is a fruit shipping port doing a large business with the United States, and the bombardment is supposed to have been without the required 24 hours notice. If it appears that American interests have suffered by arbitrary action at the hands of the Dominican government, the state departments will demand full redress and the cruiser Baltimore, now at Puerto Plata undoubtedly will prevent further happenings of this kind. Two German warships which started from St. Thomas yesterday morning, also are available by this time to aid in the maintenance of order.

## ARTIC EXPLORER WILL BE WITNESS.

St. Louis, Mo., Nov. 10.—Evelyn Baldwin, the Arctic explorer, arrived here today on his way to Jefferson City, where he will appear before the grand jury which is investigating the alum boodle scandal in the legislature.

Showing Him Where to Sign.

### FOLLOWED THE WAKE OF THIS CITY'S MAYOR.

Chicago, Nov. 10.—The city council last night passed an ordinance prohibiting the sale of toy pistols in Chicago. The measure provides a penalty of \$100 for any one who "shall sell, or furnish any toy gun, or toy pistol or toy fowling piece, or other toy firearms in which any explosive substance can be used."

### FROHMAN WILL BE TRUE TO PROFESSION.

New York, Nov. 10.—It is announced that Daniel Frohman, the theatrical manager and Miss Marguerite Illington, the actress, whose home is in Illinois, will be married in this city, November 22.

### TRADING IN WOOL IS DULL

Manufacturers Confine Their Purchases to Actual Needs of Their Mills.

Boston, Nov. 10.—Trading has been dull in the wool market last week. Manufacturers have confined their purchases to the actual necessities of the mills. It is said that never in the history of the trade has there been shown such a conservative spirit on the part of the buyers.

Piece wools are generally quiet owing to small offerings. There is no change to note in prices. Fine unwashed Dolans steady and unchanged, 34¢.

## TOM HORN'S FATE RESTS

With Governor. Guns Placed to Prevent His Rescue by Ranchers.

Cheyenne, Wyo., Nov. 10.—Gov. Chatterton will decide Tom Horn's fate, on Thursday night.

Deputies with a gatling and a Hotchkiss gun are constantly on guard at the jail in anticipation of an attempt of cattlemen to release Horn. The threat is common that the condemned will be saved from the hangman's rope.

### LAST TRIAL FOR HIM.

Kansas City, Nov. 10.—Cresceus, this afternoon, at the Kansas City Driving club's track, here, will make an attempt to lower the world's record of 2:08 for a half mile track.

### EMPEROR GETTING ALONG.

Berlin, Nov. 10.—A bulletin on the condition of Emperor William, issued this morning at the new palace, says, there is a slow improvement in the appearance of the vocal chord and adds that the emperor today resumed his usual morning walk in the park.

The bulletin is signed by Drs. Von Leuthold, Mr. C. Z. Schmitt and I. L. Berg.

## DOCUMENT GIVEN CLOSE ATTENTION.

Both Branches of Congress Receive Message and Refer It to Committees.

Washington, Nov. 10.—Today's session of the senate was devoted exclusively to the reading of the president's message in support of reciprocity with Cuba and to the routine incident to the receipt of the message and again, as on yesterday continued for only about fifteen minutes. The attendance of senators was exceptionally large, and many appeared with large

rolls of freshly prepared bills in front of them. The message received the careful attention of the senators and when its reading had been concluded Mr. Culbom (Ill.) was recognized to move the reference to three committees on foreign relations of the message and the Cuban treaty, the text of which had been transmitted with the mes-

# ALL POINTS REPORT FINE.

Everywhere Throughout Northwestern  
Ohio and Indiana Oil Is Booming.

Chicago-Record-Herald Has Made a Canvass,  
and Finds That the Producer Is Reaching  
Out and Expecting Better Things.

The rapid and almost sensational increase in the price of oil during the last few months has caused the oil fields in Indiana and Ohio to be explored in a manner unprecedented except in the boom days when oil first was discovered in this territory. Operators have been stirred into activity, and rigs have been erected to drill for oil over a vast area contiguous to the known oil fields which hitherto had been left untested.

The price of the crude oil in Indiana and Ohio has been advanced over 10 cents a barrel during the past year, and it is now selling from \$1.27 a barrel in Indiana, to as high as \$1.32 in some Ohio districts. That the advance in price is destined to continue for some time is conceded by all oil men, and some of them even venture the prediction that it will not stop until \$1.50 a barrel has been reached, says the Chicago Record-Herald.

#### More Wells Demanded.

Continuing the Record-Herald says: Agents of the Standard Oil Co. who buy most of the oil produced in the Ohio and Indiana fields, are stimulating the people to drill more wells, they where they are urging operators to put down "wildcat" wells, a term commonly applied to the oil country to designate a territory outside of the known oil belt.

The standard rise in the price of oil began little more than a month ago. From \$1.00 a barrel, which was the market price in October, 1922, it gradually advanced to \$1.12. Suddenly the Standard Oil Co. which makes the price in these fields, boosted it to \$1.27 and within three weeks was offering it at \$1.32 and higher.

Wells that have long been abandoned because their flowage was not sufficient to pay the expense of pumping when the price of oil was less than \$1 have been started again, owing to the increase in price.

#### Many Farmers Profit.

Farmers who own most of the oil lands, which they lease to operators for a royalty ranging from one-tenth to one-sixth of the output, are benefiting from the renewed activity and the consequent increase in their revenues. The extent of their prosperity is indicated by the fact that a large party of farmers near Hartford City, Ind., is arranging for a winter sojourn in California.

The marked and alarming decrease in the production of oil in the Pennsylvania and West Virginia fields, is

declared by oil men to be the cause for the advancing price in the Indiana and Ohio fields. The production of crude oil in Pennsylvania has fallen, it is said, below the consumption, and the surplus stock has been decreased 6,000,000 barrels in two years.

#### Cannot Meet Demand.

It is said that fifty new wells a day were drilled in Pennsylvania and West Virginia during the month of September, but that the increased production was still insufficient to meet the demand.

The Indiana oil belt has been explored across the state from the Ohio border through the Marion, Muncie, Parker City and Camden districts to Medaryville, and into Pulaski and Jasper counties, about eighty miles southeast of Marion. There is still a vast area of undrilled territory in this region which operators are entering gradually and quietly putting down their test wells. It is estimated that in the oil belt there are 20,000 flowing wells in operation. There is a wide range in the flowage of these wells from three-fifths of a barrel to 100 barrels a day, but the majority of wells which have settled down are counted as being good producers if they yield five barrels a day.

#### Industry Is Booming.

The following reports from the centers of production in these fields indicate the impetus that has been given the oil industry during the past two months by the rapid rise in price:

Bluffton, Ind.—The price of oil here has reached the highest point in the history of this field. This week \$1.27 was paid and the prediction of a further advance is made. The daily production for the county is 9,000 barrels, being an average of three barrels from each well. In Nottingham, Chester and Jackson townships the farmers have become independently wealthy from their oil royalties.

Winchester, Ind.—Although oil was first discovered in this field at Parker City, eight years ago, the industry was not developed until within the last three years. There are 500 wells here now, averaging about five barrels a day. Twelve wells were completed in October, with an average output of 300 barrels a day, and twenty-two new wells now are drilling. Ephraim Well has received \$9,355 in the last six months for royalties from the oil produced on his farm near Parker City. The present price, \$1.27, is the highest in the history of this field. It has stimulated capital and new companies

are organizing to drill new wells.

Fort Wayne, Ind.—The recent discovery of a gusher on the Davis farm near Baldwin, has given impetus to the development of the oil field along the Ohio-Indiana line. Previous experimental wells have not been successful in producing oil in paying quantities. Twenty of them were drilled before the pool was discovered. The Davis well promises to settle down to fifty barrels a day. Rigs are being erected to still further develop this field.

#### Revive Old Territory.

Marion, Ind.—Oil operators are now receiving the highest price ever paid in the history of this field. There is no fear of a decline in price, and a large number of new wells are rapidly being drilled. Much old territory is being revived and new wells are being put down in "wildcat" territory. More new wells are under way than at any previous time, and there is a tremendous area still to be developed in the Grant fields. The daily production is 10,000 barrels from 7,500 wells. One reason for the improvement in this field, is the fact that the gas pressure is greatly reduced, making it possible to get oil where hitherto it has been unattainable. Many men are being attracted to this field by the great prosperity.

Terre Haute, Ind.—Although thirty wells have been drilled in this vicinity only two of them produce. One flows 700 barrels a month and the other 300. There is no activity in drilling.

Anderson, Ind.—The rapid advance in the price of oil, which has now reached \$1.27 a barrel, has induced many prospectors to come into this field. Ten rigs have been set up within the last week, and are now drilling for oil. There are eighty-three producing wells averaging five barrels a day operating in the county at present. If the present price is maintained, and there seems to be no doubt that it will be, farmers in Madison county will soon become wealthy.

#### Light Yield Pays.

Peru, Ind.—The oil fields here are not as good as they were five years ago, but it will be a long time yet before they give out. Four years ago, every city lot in the western portion of the city had a derrick on it. Now in Peru and its immediate vicinity, there are only eighteen wells in operation, and the production is 4,000 barrels a month where it used to be 100,000. The high price of \$1.27 a barrel now paid here keeps up operations where otherwise it might not pay in some cases.

Wabash, Ind.—The indications are that the pool in the Rich Valley district is nearly exhausted. There are 21 wells in this district, and a few others scattered through the county. The average production of the 21 wells is only about three barrels a day. Many new wells have been drilled recently in the Lafontaine field in the southwestern part of the county, but owing to the tremendous gas pressure, it has been impossible to make them produce oil. Oil is there, however, and as soon as the gas pressure is reduced, this field undoubtedly will be developed. Farmers in this district have become comparatively wealthy from their oil royalties.

#### Leases in Demand.

Hartford City, Ind.—The high price of oil and the prospect of future advances have induced oil companies to do much drilling here during the past summer. At present, they are unable to care for all the product, and operations have been suspended until sufficient tankage has been supplied. The Standard Oil Co. owns half the producing wells in the county. The farmers in this field are receiving a higher rate for their leases than do the owners of land in the Pennsylvania fields. No leases are taken for less than one-sixth of the product, and in a majority of cases, a bonus also is given. A large party of farmers in the northern part of the county are arranging to spend the winter months

## in California.

Muncie, Ind.—The forty wells in this county have a daily output of 3,300 barrels. There is great activity in drilling, owing to the high price obtained for the oil. From present indications next year will be the greatest ever known in this district. The Standard Oil Co., which has large interests around here, is urging the operators to explore new fields. Aside from the Parker City district, Muncie is the best producing territory in this portion of the state.

#### Ohio Also Prospers.

Reports from the Ohio fields indicate that the prosperity and activity there are as great as in Indiana. Even higher prices rule in the Ohio fields than in Indiana, due to the fact that the oil is lighter and more susceptible to the refining process.

Collins, O.—There are thirty good producing wells here, averaging from ten to twenty barrels a day. The Standard Oil Co. has been foremost in the work of developing this territory, although the farmers have put down a number of wells upon their own land. From these wells and from the royalties the farmers about here are getting far more than from their farm produce. The price of oil is \$1.27, the highest known, and rigs are in operation, drilling new wells in every part of the county.

Fremont, O.—Oil is now selling here for \$1.32, the highest price ever known. Unless it reaches \$1.50, however, there will not be much activity in drilling new wells, owing to the fact that the 7,200 wells now operating average less than a barrel a day.

#### Millions Invested.

Findlay, O.—The production of oil here has fallen off about one-fourth in the last year. There are 5,000 producing wells here and in the last year, the farmers have grown rich from their royalties. The price now paid, \$1.27 is the highest ever reached, but owing to the season of the year it has not induced operators to drill new wells. Had it come two months ago, there would have been a rush to secure new leases. If it holds until spring, many new wells will be put down. It is estimated that \$20,000,000 is invested in all branches of the oil industry in this county.

Upper Sandusky, O.—There is great activity in the oil fields here. A number of new wells recently have been brought in, producing from thirty to forty barrels a day. The Standard Oil Co. controls most of the territory, but a number of independent companies are coming in. Many farmers have been able to retire on the incomes derived from oil royalties, and the country prospers. There are 169 new rigs in prospect for next spring.

THE STAGE.

The immortal Shakespeare says: "Life every man holds dear; but the brave man holds honor far more precious than life." In no play ever written for the stage has this noble sentiment been more forcibly exemplified than in "Damon and Pythias," that wonderful story of true nobility and unswerving devotion. "Damon and Pythias" is one of the few great classic plays that appeals strongly to all classes of people for it is one of such deep human interest that a simple yet forcible language, that it goes straight to the heart. Magnificently staged and acted by a company of all round excellence is F. R. Hallam's great revival of this famous play, which will be seen at the Fauror

opera house tonight.

A Voodoo scene depicting the weird vagaries and superstitions of the negro race and the big plantation before the late unpleasantness, is introduced in Al. W. Martin's big production of "Uncle Tom's Cabin" which will be seen at the Fauror opera house on tomorrow matinee and night. This act which Mr. Martin has had written and staged is said to be a marvel of stage realism. The negroes participating in it enter into the spirit of the portrayal with all the fervor and a band of the race. A voodoo doctor and queen who are supposed to have power to heal or harm away all trouble, coupled with the practices of conjury and snake worship will be shown. Special scenery for this as well as every one of the six acts of the drama is carried by the company.

"Why Women Sin," the latest successful melodrama of New York society life, which plays at the Fauror opera house on Thursday evening, is bound to create an impression in the hearts and minds of the audience. It produces a tale which is soul stirring in its pathos, intensely dramatic in its tragic incidents and side-splitting in its comedy and situations. The portrayal of the various characters, the realistic and most magnificent scenic effects, the startling and sensational climaxes that delight and thrill must be seen, the most illustrious pen being unable to give a fair description of this thrilling and luxuriously equipped production. The cast is a collection of precious stones, fairly glitters with quality and the interest of the audience is held from the rise until the fall of the curtain.

# For Indigestion KODOL

Bad breath, sour risings, a sense of fullness after eating, belching of gas, heart burn, no appetite and a loss of strength are some of the symptoms the person must endure whose stomach and digestive organs fail to digest and assimilate the food they eat. If not cured catarrh of the stomach is the result.

Kodol represents the natural juices of digestion as they exist in a healthy stomach. It cleanses, purifies and sweetens the stomach, and cures positively and permanently all stomach troubles, indigestion and dyspepsia. It restores health to the stomach and strength to the body by enabling the stomach and digestive organs to digest and assimilate all of the wholesome food that may be eaten. Makes the sick well and the weak strong.

For a number of years I was troubled with Dyspepsia and Indigestion. It grew into a very serious matter. I used all kinds of food, but I found Kodol and after using four bottles I was entirely cured. Kodol does all that you can for it. I recommend it to all sufferers from Dyspepsia and Indigestion.—Mrs. Carrie Grandall, Troy, N. Y.

## FIRE

Does \$1,000 Damage  
Last Night

In South Lima

Star Iron Works Nearly  
Destroyed.

Mr. and Mrs. Rev. Hager-  
man Victims of a  
Surprise.

Mrs. V. J. Love's Sad Visit—Two  
Weddings Told of Personal and  
Local News Tabulated  
Here

Last evening about 8:30 o'clock, an alarm was sounded from box 42 located on east Eureka street. As it by magic flames had burst through the roof end of the Star Iron Works at the intersection of Eureka and the C & D railroad, and although a night watchman is employed, the fire was not discovered until it had gained considerable headway. Both the central and southside departments were called and while one looked after the burning building, the other protected the oil well about 100 feet back of the works, and after a battle of about two hours the fire was extinguished but not until about \$1,000 damage had been done. It is now thought the fire was of incendiary origin.

**Minister Surprised.**  
Many were the phone calls to Rev. W. J. Hagerman this morning each asking: "Do you know who you are?" Well he does now but his friends had him guessing last night about 7:30 members of the Grace church and friends began to arrive at the parsonage on south Elizabeth street until the crowd became so large the house would not hold them and the committee in charge suggested retreating to the church where the service was being held. The crowd numbered over two hundred, and to the surprise of the minister was surprised to find that the service was being held in the church. After congratulations were extended to the minister, the service was presented by the soloist, Comfort, of the Grace church, and his estimable wife, and a very fine hymn was sung. The service was held in honor of Mr. Hagerman's fifth anniversary which was last Sunday, and by waiting a day to surprise was the more complete.

**Pleasure Turned to Sorrow.**  
Several days ago Mrs. V. J. Love of Toledo came to Lima to visit the A. Strauss family on east Eureka street. Since coming, Mrs. Love has experienced the sorrow of losing a loved son. Bert C. Keller, an accountant of whose death appeared yesterday and the shock has caused her to become prostrated. She was removed to the LaBelle sanatorium this morning and at present is in a serious condition. Her husband V. J. Love is here at her bedside.

Mrs. Fairbanks tells how neglect of warning symptoms will soon prostrate a woman. She thinks woman's safeguard is Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—Ignorance and neglect are the cause of untold female suffering, not only with the laws of health but with the chance of a cure. I did not heed the warnings of headaches, organic pains, and general weariness, until I was well nigh prostrated. I knew I had to do something. Happily I did the right thing. I took Lydia E. Pinkham's Vegetable Compound faithfully, according to directions, and was rewarded in a few weeks to find that my aches and pains disappeared, and I again felt the glow of health through my body. Since I have been well I have been more careful. I have also advised a number of my sick friends to take Lydia E. Pinkham's Vegetable Compound, and they have never had reason to be sorry. Yours very truly, Mrs. May Fairbanks, 210 South 7th St., Minneapolis, Minn." (Mrs. Fairbanks is one of the most successful and highest class traveling saleswomen in the West.)—\$5000 for the original of above letter proving genuineness cannot be produced.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

**Poage-Shaffer Wedding.**  
A quiet wedding occurred at the Grace M. E. parsonage Saturday evening. Rev. Hagerman officiating. Mr. Harry Poage and Miss Bessie Shaffer daughter of Mr. and Mrs. H. Shaffer of south Elm street. After the ceremony which was witnessed by only near relatives, the happy couple went to the home of his parents, 480 west North street, where they will make their home and where a wedding dinner was served Sunday. Mr. Poage is a tailor by trade.

**Hughes Doyle Nuptials.**  
Another wedding occurring in south Lima last week which has been kept quiet was the one in which Mr. Martin Hughes, a clerk in Reilly's restaurant on north Main street, and Miss Mary Doyle of 967 Tanager avenue were the principal actors. Rev. Rupert of the St. Johns church officiated at this wedding last Wednesday evening. Miss Doyle is a daughter of Mr. and Mrs. Patrick Doyle.

**Local Briefs.**

Mr. Emma Shroome, of south Elizabeth street, visited her sister Mrs. W. A. Cochran at Delpho, Pa. (day).

## PROF. DANA

Signally Honored by His  
Musical Associates.

College of Music Fully Incorporated  
With Former Lima Boy  
as Dean.

The Warren Ohio Review contains the following concerning the incorporation of a musical college in that city:

The College of Music of Dana's Musical Institute was fully incorporated last evening with the following officers: President William Dana, Vice President Lynn B. Dana, Dean J. A. Schmitt, H. C. Thayer, W. B. Hart and J. O. Cook. The board of trustees are W. H. Dana, Lynn B. Dana, J. A. Schmitt, J. A. Schmitt, W. B. Hart, C. Clark, Thayer, J. D. Cook and Melinda P. White.

The College of Music is a higher organization of the present Dana's Musical Institute through which pupils must pass after graduation in order to secure the degrees of fellow and master of music. Rigorous examinations must be passed in the college to obtain these degrees.

Lynn B. Dana was presented with a gold medal by the faculty of Dana's Musical Institute last evening an honor bestowed upon a worthy gentleman and a capable musician.

## FUND

Is Depleted and No  
Contract

Was Awarded

For Repairing of the  
Viaduct.

The City Council Re-Con-  
siders the Action It Took  
a Week Ago

South Main Street Boulevard Lamps  
Will Be Retained and the Arc  
Lamps Above Them Will  
Be Removed.

Because of not having money in the bridge fund with which to pay for the work, the city council at its adjourned session last night, refused to award a contract for the repairing of the east North street viaduct which is in a dangerous condition. The action of the body on the adoption of the report of the bridge committee a week ago was reconsidered under the protests of members Smith and Hullinger, and the matter now stands as it did before the committee made its investigation and report.

Petition to require the P. Ft. W. & C. railroad company to complete the improvement south of the tracks between Elizabeth and West streets was referred to the board of public service.

Petition for sewer on north Jameson avenue was referred to the sewer committee and petition for sewer on south Metcalf street was referred back to the petitioners.

The finance committee recommended that the Electric Light Co. be required to remove the three arc lights now in service above the south Main street line of boulevard lamps to some parts of the city where they are needed. The committee also reported that the B. of P. S. had no authority to increase the police force as it has done—one man—except at such time as when the police department appropriation ordinance is adopted and therefore recommended that the board be required to find means of paying the one extra man for the one month he has now served.

In reply to a question the solicitor stated that the council had a right to order any of the Electric Light Co.'s lights removed from one place to another but could not under the terms of the contract reduce the total number of lights in service.

The report of the finance committee was adopted.

A number of new sidewalks, reported by the sidewalk inspector were accepted.

A resolution allowing certain contract bills was adopted.

An ordinance to improve south Pine street from Market street to the river bridge by paving the same was passed under a suspension of the rules.

Ordinance establishing permanent grades for the extensions of west Market street and west North street were passed.

**ADVANCED HEARING.**  
Washington, D. C. Nov. 10.—The U. S. supreme court today granted the motion recently made on behalf of the state of Minnesota to advance the hearing in the case of that state vs. the Northern Securities Co. and named the 4th of January, after the other cases already set for that date as the time for hearing the case.

## THE WEATHER.

Washington, Nov. 16.—For Ohio:  
Fair and colder tonight; Wednesday,  
cloudy and warmer.

That portion of Colombia known as  
Panama, and which has declared its  
independence is about the size of In-  
diana, when Beveridge is away, and  
has 250,000 of the four million popula-  
tion. Taking percentages into the  
calculation, it is fair to reach the con-  
clusion that there may yet be some  
internal fun on the isthmus before  
Colombia gives up territory which in-  
cludes the proposed canal route, and  
her important maritime coast.

The splendid victory of McClellan,  
in New York, has started the republi-  
can machine going to find out some  
flaw in the young man's life that  
would prevent him serving as presi-  
dent of the United States. As a re-  
sult of the exploration, the expert re-  
publican deliver into private affairs,  
has found that McClellan was born in  
Bredon, during a foreign trip of his  
parents.

This heinous crime, in which the  
subject under discussion was partici-  
pate criminals does not, under any  
decisions of United States court, bar  
him of any of his rights as an Ameri-  
can citizen, even to sitting as presi-  
dent.

## WHAT IS WEALTH?

Health and Ability to Work Better  
Than Money and Worry.

Does wealth consist in money, houses,  
lands, bank stocks, railroad bonds, etc.,  
alone? We think not. The young man  
starting in life with no money, but  
with good digestion, good sleep, good  
health and ability to work in some  
profitable employment, has what the  
aged capitalist would be glad to ex-  
change all his millions for.

What compensation is money for  
sleepless nights and painful days or  
the misadvent of dissipated children?  
Which brings the greater happiness,  
the glitter, show, jealousies and falsity  
of fashionable life or the heartfelt  
friendships which prevail so largely  
in the homes of the industrious poor?  
In how many of the palaces of our mil-  
lionaires will you find greater happi-  
ness in the parlor than in the kitchen?  
How many millionaires will tell you  
that they are happier now than when  
starting in life without a dollar?

On the top of mountains we find  
rocks and ice and snow. It is down in  
the valleys that we find the vineyards.  
Let no man envy those richer than  
himself until taking all things into  
account—age, health, wife, children,  
friends—he is sure he would be willing  
to exchange—George J. Angell in Our  
Dumb Animals.

## The Bredon Prisoner.

"The charge is in 'em," the police ju-  
stice said, "is burglary. What have ye  
got to say?"

"As to that," replied the prisoner, a  
seely looking man who appeared to  
have seen better days, "it by the terms  
of burglary you mean the offense  
which, according to English law and  
practice for centuries, has been clearly  
defined as house breaking by night,  
the charge is palpably ridiculous. The  
police officer alleges that he detected me  
in the act of breaking into a house yester-  
day afternoon in broad daylight. If,  
on the other hand, the term is made to  
cover the same offense when committed  
by day, which, I believe, is your absurd  
American understanding of the word,  
in a legal sense, I shall have to concede  
the correctness of the charge, your hon-  
or, however, the right to re-  
gard with a species of contempt the  
crude jurisprudence of this country."

"Take 'em back to 'em cell," gasped  
the police justice, "as let 'em go."

## DYNAMITE

Torpedo Seriously Injures a  
Young Lad.

Robert Miller, of North Pine Street,  
Made the Victim by Some of  
His Young Companions.

Robert H. Miller, a youth, who  
makes his home with his grandmother,  
Mrs. A. Y. McKinney, at 224 north  
Pine street, was seriously injured by  
the explosion of a dynamite torpedo  
Saturday, about noon.

Several torpedoes were secured  
somewhere by three of Miller's young  
companions whose names are alleged  
to be August Keller, Charley Phillips  
and Robert Peeman. They gave one  
to the Miller boy and told him there  
was nothing in it but sand. He stooped  
to place the torpedo on the side-  
walk, and before he raised up, one of  
the boys exploded the torpedo by hit-  
ting it with a stone. Young Miller's  
left arm sustained a wound in which  
a blood vessel was severed, his face  
was burned and lacerated and his left  
hand was terribly mangled.

After the disastrous explosion, the  
boys threw the remainder of the tor-  
pedoes into a sewer at Wayne and  
Pine streets. A physician dressed the  
injured lad's wounds.

## FEDERATION IN SESSION.

Suggestions Made by President  
Compers Under Consideration.  
There Is Some Sinfe.

Boston, Mass., Nov. 16.—The dele-  
gates to the 23rd annual meeting of  
the American Federation of Labor to-  
day, assembled for deliberation on a  
subject the important nature of which  
has drawn to Boston, labor leaders  
from all parts of the country. Presi-  
dent Compers' address, and the re-  
ports of Secretary Morrison and  
Treasurer Lenson, were presented  
yesterday so that the principal item  
of routine arranged for today was to  
be the report of the executive com-  
mittee of the federation.

Then it was expected that many re-  
commendations contained in President  
Compers' address would be acted up-  
on by the convention. The declara-  
tion that the great danger which con-  
fronts the federation is the inter-  
secting strife between affiliated unions  
over the jurisdiction of trades, has  
been the chief topic of discussion  
among the delegates. It was generally  
expected that some decided action on  
this matter would be taken.

# TIE THAT BOUND ONE

Of America's Richest Daughters to a  
Title Was Completed Today.

Roxburghe--Goelet Wedding Was Witnessed by  
About Half of Henry Watterson's Favorites.  
Bride Was Richly Gowned and Re-  
ceived a Million in Presents.

New York, Nov. 16.—The marriage  
of Miss May Goelet, only daughter of  
Mrs. Ogden Goelet, and one of the  
richest of American heiresses to  
Henry John Inness-Ker, eighth Duke  
of Roxburghe, was solemnized today  
at St. Thomas' church in this city,  
Bishop William Crowell Doane, of Al-  
bany, assisted by the Rev. Ernest M.  
Stires, of St. Thomas church, per-  
forming the ceremony. A company of  
250 guests, a small number for an in-  
ternational marriage of such impor-  
tance, witnessed the ceremony, but  
masses of palms, shrubs and flowers  
banked the church so effectively that  
the great nave seemed far from  
empty. In the chancel itself, where  
the ceremony took place, palms, Jap-  
anese chrysanthemums and English  
primroses were combined in artistic  
color scheme, with which the orchids  
on the pulpit and the lilies about the  
altar toned beautifully. Forming in  
the outer vestibule of the church, the  
bridal party proceeded down the aisle  
to the chancel steps, the bride on the  
arm of her brother, Robert Goelet.

She was gowned in white satin ves-  
ted with point Valenciennes lace and  
trimmed with wreaths of orange blos-  
soms. Her veil was of tulle, and she  
carried an old-fashioned bouquet of  
lilies of the valley.

The maid of honor, Miss Beatrice  
Mills, and the other bridesmaids, Lady

Isabel Inness-Ker, Miss Martha John-  
ston, Miss Alice Babcock, Miss Marian  
Haven, Miss Therese Iselin, Miss Nina  
Thayer, of Boston, and Miss Pauline  
Whittier, wore gowns of pink mousseli-  
ne de soie, of quaint and effective  
Louis Sixteenth period, combined with  
ecru lace, toques of pink velvet trim-  
med with lace and sable and carried,  
in place of bouquets, muffs of pink  
velvet, and sable. The ushers, Hugo  
Baring, Howard Brassey, Robert  
Warrton Goelet, Rogers Winthrop,  
Henry Bull and Wm. Woodward, did  
not precede the bridal party as cus-  
tomary, but were seated before the  
bride entered.

At the chancel steps, the bride was  
met by the duke and his best man,  
the Hon. Reginald Ward, son of the  
late Earl of Dudley, and the betrothal  
service of the Protestant Episcopal  
church was read by Rev. Stires. The  
party then advanced to the altar rail,  
where the Episcopal marriage cere-  
mony was read by Bishop Doane. Af-  
terward, the Duke and Duchess went  
to the home of Mrs. Ogden Goelet, on  
Fifth avenue, where an informal re-  
ception, to which only a part of the  
wedding guests were bidden, was  
held. It had been intended to make  
the wedding a more brilliant func-  
tion, but the death of Sir. Michael  
Herbert, uncle of the bride, caused the  
change in plans.

# PANAMA QUESTION

Discussed by President, Hanna and Cab-  
inet, But Nothing Reached Public.

Colombian Government Establishes Censorship  
Over Cablegrams From Interior. U. S. Will  
Not Submit to Suppression of Its De-  
spatches, So Long as Route Is Open.

Washington, Nov. 16.—An impor-  
tant conference concerning the Panama  
situation was held at the White  
House today, just prior to the formal  
meeting of the cabinet. The partici-  
pants in the conference were Presi-  
dent Roosevelt, Senator Hanna and  
members of the cabinet. The deci-  
sion reached, if any was not disclosed.  
It is understood however, that the de-  
cision was purely informal and not in-  
tended in any manner to be decisive.  
As Senator Hanna left the White  
House, he chatted frankly. He said  
that he and the president had not de-  
cided the question of chairmanship of  
the republican committee.

"In fact," said he, "that matter was  
not mentioned today. Its a dead is-  
sue anyhow."

"We talked of a variety of topics,"  
continued the senator, "among them  
the Panama situation. That is now a  
present question. The people of this  
country want an isthmian canal built  
and they want it built by the Panama  
route. They have accepted the Pan-  
ama route and they propose to stand  
by the president in the matter of con-  
structing the canal by that route."

Senator Hanna was asked whether  
in his opinion it would be necessary

to enact new legislation to provide  
for negotiations between the United  
States and the Republic of Panama  
for the construction of a canal. He  
replied that that was a question for a  
lawyer to answer. He felt that a new  
treaty would be necessary, of course,  
but did not think serious difficulty  
would be encountered in negotiating  
a canal treaty with Panama. The  
navy department is advised that  
Admiral Glass, commanding the  
Pacific station arrived at Panama this  
morning with the cruiser Marblehead  
and the gunboat Concord, having made  
a quick run from Acapulco. The  
Monitor Wyoming was not able to  
keep with the other two vessels and  
will not reach Panama before Thurs-  
day. The state department was not-  
ified that the Colombian government  
had established a censorship over  
cablegrams from the interior of Co-  
lombia reaching Buena Ventura. This  
practically cuts off free communica-  
tion between Bogota, the capital of  
Colombia, and the outside world. It  
may delay communication with the  
United States Minister Beaupre, but  
the United States government will  
not submit to any suppression of its  
dispatches so long as the telegraph

## ONLY FOUR HUNDRED MILES AWAY FROM LIMA.

Washington, Nov. 16.—Frank Wy-  
man, today, was nominated to be post-  
master at St. Louis. He is a brother  
of Surgeon General Wyman, of the  
Public Health and Marine hospital  
service.

## ANOTHER LOCKOUT.

Pittsburg, Pa., Nov. 16.—Another  
general lockout in the building trades  
is threatened unless the trouble is ad-  
justed by Friday, thousands of work-  
men in the different trades will be  
thrown out of employment.

## WORK

On the Extension  
of the D. S.

Is Commenced

On Property Purchased  
in Toledo

Temporary Traffic Arrange-  
ment May Be Made With  
T St L & W.

Construction Work on the Hamler  
Toledo Line Will Be Started  
Not Later Than March  
The Railroads.

The Detroit Southern has begun the  
improvement of the sixty acre tract,  
which it purchased from the Swayne  
interests some months ago, says the  
Toledo Times. This tract adjoins  
the blast furnace property and is in-  
tended as a site for coal and ore  
docks, as well as a freight transfer  
house.

A number of needed tracks are being  
laid and a connection with the main  
line of the Terminal Belt railway will  
be built. A spur will lead from the  
big belt to the river front and spread  
out fan-like, covering the property.  
Not until about March 1st will con-  
struction work on the docks begin.  
But the track work mentioned will be  
completed within a few weeks.

It is yet undetermined when to  
build the recently incorporated Toledo  
and Southern railway, which is a sub-  
sidiary company of the Detroit South-  
ern, and the title given to its Toledo  
extension. This road will extend  
from Hamler to Toledo, a distance of  
30 miles. The indications are that  
construction will not begin until  
March. However, it would not be  
surprising if the work was started  
sooner.

Meantime there is a probability of  
the Detroit Southern making traffic  
arrangements with the Toledo, St.  
Louis & Western, and sending its  
coal trains in here, using, probably,  
the big belt tracks for local terminal  
facilities. This arrangement would  
be only temporary, however until the  
Hamler line could be placed in opera-  
tion.

President Hunt, of the D. S. railway,  
and F. L. Lisman, of the Colonial  
Trust Company, of New York, and a  
director of the D. S., were in Toledo  
a couple of weeks ago, viewed the  
premises referred to and authorized  
the construction work outlined in the  
foregoing.

## Fast Erie Run.

W. S. Morris, mechanical superin-  
tendent of the Erie, has caused to be  
posted in the annex of the engine de-  
patcher's office, at Huntington, a bul-  
letin concerning a fly run made with  
train No. 13, last Friday evening. The  
bulletin is marked "Complimentary  
Bulletin No. 5." The contents of the  
bulletin are as follows: "Train No.  
13, on November 6, Engineer George  
Bush, and fireman C. B. McClellan,  
made a very noticeable run on the  
Lima division. They left Marion at  
3:30 p. m. and attained variable  
speeds of forty-five to sixty-five miles  
an hour. This did not include stops  
at Kenton, Lima and Ohio City and  
Decatur and a stop at Kingsland  
for the block signal. Stops used up  
twenty-five minutes of the train's  
running time.

Another good run with train No. 13,  
was made Sunday evening. The train  
was pulled by a double-header, the  
engines being Geo. Bush and James  
Smith. President Underwood's pri-  
vate car was attached to the train, and  
he was aboard on his way to Chicago.  
The run from Marion to Huntington  
was made in two hours and fifty mi-  
nutes, with twenty-five minutes' delay.

## New Express Train.

A new mail and express train has  
been put into service on the Pennsyl-  
vania, and is known as second section  
of the New York-Chicago limited, No.  
23. The train carries two mail cars  
which were formerly run in connec-  
tion with the regular train, a number  
of express cars and a Pittsburg ex-  
press car for the crew having charge  
of the train. Within a few weeks, it  
is stated that eleven cars will be ne-  
cessary to handle the express matter  
which will come as a result of the new  
service.

# TWO KILLED, TWO WOUNDED

All Because an Idaho Miner Refused to Cease Smoking a Cigar.

Well Know Surgeon Who Was Not Implicated in the Trouble Was Shot to Death by the Aggressor.

Wallace, Idaho, Nov. 10.—Two persons were killed and two wounded in a shooting affair, at the entrance of the Wallace opera house last night. The shooting took place just as the theatre goers were leaving the theatre following a performance by the James O'Neill Company.

The dead: Dr. W. F. Fims, shot through the head, William Cuff, miner, shot three times. The wounded: Chief of Police McGovern, shot through right hand; opera house policeman Rose shot in leg. The trouble arose over Cuff insisting on smoking a cigar in the gallery. House policeman Rose ordered him to desist, but he refused. The policeman took the cigar away from Cuff, after a struggle. Cuff left the theatre vowing vengeance. He returned with a revolver, and waited until the performance was over. Rose was the first man to leave the opera house

As he stepped outside. Cuff began firing. The first shot missed. Dr. Fims, who was escorting a woman, followed Rose out, and as he did so a bullet, presumably from Cuff's revolver, struck him in the head, killing him. Other policemen appeared at this time, and a general fusillade followed. The panic stricken theatregoers rushed back into the foyer, men and women being trampled on in the mad rush to get away. Cuff continued firing, wounding Chief of Police McGovern and Officer Rose. Cuff then started to escape, but was intercepted at a side exit by Policeman Quinn, who kept up a running fire, three bullets taking effect. Cuff fell unconscious, and died in fifteen minutes. A number of persons were injured in the stampede. Cuff was a miner, and served in the Philippines with an Idaho regiment. Dr. Fims was a well known surgeon and leaves a family.

# ROBBED POLICEMAN AND THE POSTOFFICE.

Marion, Miss., Nov. 10.—Four burglars early today overpowered the only policeman of this place and after robbing him and locking him up in the town jail, they blew open the postoffice safe, riddled it with contents and \$4,000 in money and valuables held in one man at the point of a revolver

and fired two shots at another man, both bullets going wide of the mark. Citizens awakened by the tumult, sounded the fire alarm, which called the entire male population of the town to the scene and a search for the robbers was commenced. The burglars secured about \$1,000 in money and valuables belonging to the postmaster.

# CITIZENS TO VISIT LOCOMOTIVE WORKS.

The officials of the Lima Locomotive and Machine Co., have issued invitations to the citizens who purchased lots in the Park and Lakewood additions, to bring their friends with them and visit the mammoth new plant the company now has in operation on the south side. The object of the visit, as stated by the invitations issued, is to have the patrons of the

lot sales inspect the plant they enabled the company to build and to inspect the heaviest locomotive on drivers in the world. The company is building an engine of the Shay type that will, when completed, weigh 30,000 pounds.

The invitations request the recipients and their friends to be the guests of the company from 2 to 5 o'clock, Wednesday afternoon.

# BRIEFNESS

Characterized Meeting of the Board.

Very Little Business Quickly Disposed of.

Special Committee Reports Favorably on the Illustrated Literature of Prof. C. Oliver Powers.

The meeting of the board of education last night stands as a record for brevity in business. An element which does not frequently enter into the proceedings of that body. There was a bare minimum program including President Prophet, Frederick, Donahoe, Spicker, McNeany, Blattenberg, and a number of others. It took longer to read the minutes of the last meeting than it did to make material for the other pages of the journal.

The clerk read the first report of Architect Chapin, relating to the construction of the two new ward buildings. The excavating for both has been completed, and the work is progressing rapidly.

Mr. Frederick, chairman of a special committee appointed to report on the proposition of Prof. C. Oliver Powers, to give an illustrated lecture in Oliver hall, stated that the committee was unanimously in favor of it. Each child who sells a 25 cent ticket is entitled to free admission and a portion of the proceeds will go to the teachers' school library. No definite date has been decided on, but it will be sometime about the middle of December.

Mr. Donahoe reported that the work done so far on the new ward buildings was very satisfactory. He also stated

that Master Mechanic Gould, of the C. H. & D., had made no charge for repairing a fire alarm and he was tendered a vote of thanks.

The janitor at the west building asked for enough zinc to protect the wooden coal boxes and the supply committee was instructed to purchase it.

Supt. Miller sent word that he was suffering with rheumatism, and would not be present unless something important came up to demand his attention. He was excused from making his regular report, and the board adjourned.

# HOW TO GET WELL

If one is sick and wants to get well there is just one way to go about it. That is to breathe pure air, drink pure water, and eat the right quality of food. That is all there is to it. Air, water, and food of a proper sort the body requires. Nearly every disease is caused by a lack of one or all of these things. Some doctors may tell you that pure blood, upon which good health depends, is made in some other way. The wise doctor will tell you it can be made from no other source whatever. People who are sick and want to get well will find that no food is more agreeable in the production of pure blood than Shredded Whole Wheat Biscuit, and that none is more appetizing or more easily digested. Physicians who have studied the food question are warm in their endorsement of Shredded Wheat for invalids and for people suffering from some impairment of the digestive functions.

I most cheerfully endorse Shredded Wheat as a healthy and highly nutritious food. Especially is it adapted for those suffering from a weak stomach and indigestion. —Carry Allen, B. D., Colorado Springs, Col.

# DISCREET INDISCRETION.

Now the insubordination of a Diplomat Averted Hostilities.

An example that can never be overlooked when the right of an ambassador to exercise his own discretion is in question is that which occurred in the career of Lord Lyons when he was our ambassador to the United States. He was a persona grata there. "All I can say," Lord Lyons, is, "Go thou and do likewise," was Abraham Lincoln's genial method of receiving the British ambassador's announcement of the Prince of Wales' marriage. Lord Lyons did not take the advice, but he remained a very effective ambassador in spite of his bachelordom. When the grave difficulty over the Mason and Sill case arose Lord Lyons was instructed from home to present an ultimatum, afford twelve hours for its acceptance, and, the latter not being forthcoming, he was to break off relations and leave the country. The twelfth hour expired, Sill and Mason were not surrendered and there remained apparently only the dire prospect of war. "Give me another twelve hours," said Seward, the secretary of state. It was an entire contradiction of official orders, but, nevertheless, "I will," said Lyons. From 6 o'clock that night until 6 the next morning Seward battled with the realists. Then Lyons received an intimation that the Confederate envoys would be given up. So by the insubordination of an ambassador war was saved.—St. James Gazette.

# Bismarck's Best Cigar.

Unlike Napoleon, Bismarck was a hard smoker. He once told this story to illustrate his love of the weed: "The value of a good cigar is best understood when it is the last you possess and there is no chance of getting another. At Koenigsberg I had only one cigar left in my pocket, which I carefully guarded during the battle as a miser guards his treasure. I did not feel justified in using it. I painted in glowing colors in my mind the happy hour when I should enjoy it after the victory, but I had miscalculated my chances. A poor dragon lay helpless, with both arms crushed, murmuring for something to refresh him. I felt in my pockets and found only gold, which would not be of the least use to him. But stay! I had still my treasured cigar. I lighted it for him and placed it between his teeth. You should have seen the poor fellow's grateful smile. I never enjoyed a cigar so much as that one which I did not smoke."

# The Angel Child.

"Martha," said her mamma, "I trust that while you were at your Aunt Martha's you said nothing to offend her."

"Oh, no, mamma," declared the angel child. "I was careful to say things which would make her know that you and papa liked her for herself alone."

"That was proper."

"Why, when she asked me if you folks had named me Martha so that she would leave us her money when she dies I told her that papa and you had talked about that and that papa said we mustn't think of such a thing."

"And what did she say?" asked mamma eagerly.

"Nothing. She just laughed and said I was a good girl and I'd better run home when I told her what papa said about her going to have a pocket made in her shroud."—Chicago Tribune.

# Condiments and Digestion.

People with weak digestions will always be found to be fond of condiments, as the tendency of these things is to stimulate the glands of the stomach and cause them to produce a larger supply of digestive juices. Pepper, mustard and other like spices stir up the liver and are useful to people who from necessity or other causes lead sedentary lives. Vinegar dissolves the cellulose in raw vegetables, and that is why it tastes so well with cabbage and salads; for there is no better judge than the palate of what is good for the stomach. The oil is added because it protects the stomach from the biting acid.

# The Thumb.

Thumbs have been appreciated ever since the world began. The ancients used to call the thumb the other hand. Barbarous kings used to swear and make compacts by their thumbs. In Rome it was a sign of favor to wring and kiss the thumb and of disfavor or disgrace to lift it up or turn it outward. A man who was hurt in his thumb was excused from serving in the Roman wars. Some of the soundest citizens used to cut off their thumbs so as to remain at home and get rich. Teachers used to punish their pupils by biting their thumbs.

There is one rational way to treat nasal catarrh: the medicine is applied direct to the affected membrane. The remedy is Ely's Cream Balm. It restores the inflamed tissues to a healthy state without drying all the life out of them, and it gives back the lost senses of taste and smell. The sufferer who is tired of vain experiments, should use Cream Balm. Druggists sell it for 50 cents. Ely Bros., 56 Warren street, New York, will mail it.

# HAIR NATURALLY ABUNDANT.

When It Is Free of Dandruff, It Grows Luxuriantly.

Hair preparations and dandruff cures, as a rule, are sticky or irritating affairs that do no earthly good. Hair, when not diseased, grows naturally, luxuriantly. Dandruff is the cause of nine-tenths of all hair trouble, and dandruff is caused by a germ. The only way to cure dandruff is to kill the germ; and, so far, the only hair preparation that will positively destroy the germ is Newbro's Herpicide—absolutely harmless, free from grease, salicylic acid, or any other dangerous drugs. It always itching instantly; makes hair glossy and soft as silk. "Destroy the cause, you remove the effect," said leading druggists. Send the in stamps for sample to The Herpicide Co., Detroit, Mich.

# \$500,000 IN PRIZES of \$5.00 each to be given to the School Children of America

School Children's Competitive Advertising Contest No. 51

Like Miss Muffet,  
Sat on a tuffet,  
Eating of Egg-O-See.  
There came a big spider,  
Who sat down beside her,  
And stole all her Egg-O-See.

This sketch was made by Helen Foster, age 12, Greenwood School, Des Moines, Ia. We give a cash prize of \$5.00 for any drawing of this character which we accept and use. All school children can compete. Full instructions will be found on inside of each package of Egg-O-See telling what to do to get the prize and how to make the drawings.

The largest and most complete and modern food mill in the world equipped with the most approved sanitary devices, enables us to make the purest and most wholesome flaked wheat food on the market today. Crisp, delicious, strengthening and digestible.

More—The price of Egg-O-See is 10c for a full size package, such as is usually sold for 15 years. The largest food mill in the world, and the most approved labor-saving machinery enables us to make the best flaked wheat food at this lower price.

ASK YOUR GROCER FOR THE GREEN PACKAGE. If your grocer does not keep it, send us his name and 10 cents and we will send you a package prepaid. Address all communications to Battle Creek Breakfast Food Co., Quincy, Ill.

The man on the stage who does the trick of escaping from firmly tied ropes, submits to the bonds with a smile. He knows he can get out of the ropes that are being knotted. Put the same man in the woods and let Indian captives bind him to a tree for torture and he would struggle to the last against the bonds.

When the stomach is diseased there are bonds being woven every hour clear to the organs dependent on the stomach—heart, lungs, liver, kidneys, etc. The folly of mankind is to passively submit to the fastening of these bonds with no effort to escape until the pain they cause becomes fear.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It cures diseases of heart, liver, lungs, kidneys and other organs, when these diseases, as is often the case, have their origin in the diseased stomach.

"For a long time I was suffering and was hardly able to get about," writes Mr. Andrew J. Jennings, of Thomas, Tuckey Co., W. Va. "I was bothered with kidney trouble and my whole system was out of order; had no appetite. A friend of mine told me to try Dr. Pierce's Golden Medical Discovery. I did so and the first bottle restored my appetite. I took six bottles of 'Golden Medical Discovery' and some of the 'Pleasant Pellets' and feel like a new person."

Dr. Pierce's Pleasant Pellets cleanse the clogged system from impurities.

"This is to certify that I have taken two bottles of Foley's Kidney Cure and it has helped me more than any other medicine," writes P. H. Duffy, of Ashley, Ill. "I tried many advertised remedies, but none of them gave me any relief. My druggist recommended Foley's Kidney Cure and it has cured me. Before commencing its use I was in such a shape that I could hardly get up when once down." H. F. Vorkamp, corner Main and North streets.

**ROMOC**  
**DON'T BOLT YOUR FOOD.**  
Take time for your lunch—try and enjoy what you eat. This is the advice that the Romoc man gives to his hurried friends. No wonder you have dyspepsia. You might as well expect a watch to run smoothly after greasing it with butter. Instead of lubricating it with some fine oil. You cannot throw everything into your stomach and expect that organ to work well and do its duty; but never mind all that, learn first to treat your stomach with half-way respect. Learn next how, if you have broken it down, to make it well.

The way to do that is to take Romoc. It is Nature's own remedy. There is nothing like strengthening the stomach, and, in fact, on all the vital organs of the body. You will find that by the use of Romoc in a very short time you will have a hearty appetite and you will enjoy everything you eat.

Just try my Romoc and see how much good it will do for you than remedies containing injurious drugs and a large percentage of alcohol, which at the best can only serve to give temporary relief.

**Ask for ROMOC LAXATIVE TABLETS—SURE CURE FOR CONSTIPATION.**  
We have investigated Romoc. We know that all that is said by the Romoc man pertaining to this wonderful remedy is true, and we will refund to anyone the price of the remedy not satisfied with the results obtained. Remember, Romoc is guaranteed and sold by

Do you suffer with **INDIGESTION**—are you distressed after eating—does a torpid liver make you feel unwell—out of sorts—at variance with the world? Do the kidneys fail to perform their duty, giving backache and general lassitude? Are you all worn out?

**LIFE PLANT** will relieve quickly and cure permanently—no disappointment—no failure—it has cured thousands of others—it will cure you.

Rev. J. H. Merchant, Pastor M. E. church of Freeport, O., writes under date July 10, 1900: "I take pleasure, and do not hesitate to recommend Life Plant as an excellent remedy for Liver and Kidney difficulties. Mrs. Merchant desires to bear testimony to the healing virtues of Life Plant, as a sure and certain remedy for Rheumatism."

# FINDLAY CROSSING TAKEN BY THE CITY.

Notice of Supreme Court's Ruling Served by the Sheriff and Now There Is Talk of Putting in a Tunnel.

Formal possession has been taken of the Findlay street crossing of the C. H. & D. Deputy Sheriff Summers and Fred visiting that point and ordering the cars on the six tracks so separated as to give a twenty foot light of way to pedestrians.

After several years of litigation the supreme court held that the city was entitled to a free crossing at that point, and while it relieves the situation for those who live on the east side, the crossing in its present condition must always be considered an extremely dangerous one. It practically cuts the yards in two at a most active point, and unless the greatest caution is used, accidents are bound to occur.

In order to determine exactly how much switching and passing of trains there were during a single day, the railroad company put guards at the crossing, and from their count it is shown that 225 engines crossed Findlay street in ten hours, an average of five every 15 minutes. The danger is thus made apparent to children especially.

This conclusion has brought up the discussion of a tunnel or overhead crossing, and as it means the saving of hundreds of dollars, not to speak of the loss of time and inconvenience, the railroad company feels the necessity of making the change, and will likely do so before long.

## SPECIAL

Trains Will Bring Section Men to Lima

And They Will Excavate at the Freight Depot.

Lake Erie Office Force Is Installed in the New Building But It Is Not Entirely Completed.

The Lake Erie freight office force, doing business in the new and convenient freight depot, but it will be some time before the work, which has occupied several months, will be entirely completed. A fence is being installed today.

The old freight house, which lies south east of the new structure, has been sold to the strawboard company, and a force of men are at work today getting it in shape for removal.

Next Sunday, two special trains, carrying all of the section men along the line, will bring them to Lima and

they will be put to work excavating the ground on the east side so that cars on the switch can be loaded direct from the doors of the freight house, without the necessity of a platform. A concrete wall will be built to protect the sidewalk on Wayne street. Wagons to be loaded will drive in on North street, and out on Wayne, and a dozen car loads of stone have been dumped on the west side to make a smooth and compact driveway.

Attend Unveiling of Cochlin Monument

The unveiling of the monument of the late Thos. Cochlin, at Elmgrove cemetery, by Buckeye Camp, W. O. W., Sunday, was largely attended by members of the order and the public in general, says the St. Mary's Daily News. Large delegations from Lima, Wapakoneta and Celina were present, and met with Buckeye Camp at their hall in the First National Bank building, where a procession was formed, which led by the W. O. W. band, marched to the Fox building on east Spring street where a large number of members of the ladies branch joined in the procession in the march to Elmgrove cemetery.

At the cemetery, the beautiful ceremony of the order, appropriate for the occasion, was gone through with by the officers of the lodge and an address was delivered by Rev. Arthur Barber. There were over three hundred members of the order in the line of march, making one of the largest turnouts of that nature ever witnessed on the streets of this city. The visiting members of the order were served with dinner and supper by Buckeye Grove, in the Fox building.

Of the Three Car Breakers

Disposed of

And Now Await the Court's Sentence.

Neusbaum Will Get Heavier, Being Found Guilty of Burglary

And Charles Tabler, the Third Member of the Trio Will Appear for His Trial Tomorrow.

It took less than three hours this morning to organize the jury, present the evidence for state and defense, finish the argument, and receive a verdict of guilty in the case of the state against Forest Neusbaum, charged with burglary. Neusbaum was a companion of Gail Hawkins, the colored lad, who got off with a lighter verdict, now being brought to answer for larceny. Charles Tabler, the third one of the Erie car breakers will have his trial tomorrow.

Foreclosure Suit. The Fairbanks Construction Company of Marion, Ohio, is plaintiff in a foreclosure suit, naming W. A. Carey as defendant. Two promissory notes for \$225 and \$86.28 respectively are attached to the petition, and foreclosure of a mortgage on a lot on Kibby street is asked for. Scofield, Durfee & Scofield of Marion, represent the plaintiff.

Will Fight the Judgment. Elmer E. Tuttle has appealed from the decision of Justice Mowen, who rendered judgment against him in favor of P. R. Kerr for \$7.50. Mr. Kerr claims to have made the sale of a piece of property on Charles street for the defendant, who received \$20.00, and suit was brought to collect a commission of 2 1/2 per cent, amounting to \$47.50.

One Boarder Less. Wm. Nickless, the self-confessed horse thief who stole two mares from John Craft, at Spencerville, was taken to Columbus by Sheriff Barr yesterday, to begin his term of two years in the penitentiary.

Cruelty and Desertion. Little E. Blanchard vs. Thomas Blanchard, is the style of the first divorce suit filed for several days, the petition being prepared by Wheeler and Beatty. They were married at Newark N. J., Nov. 11, 1899, but have no children. The defendant is charged with the grossest cruelty and desertion, his absence being for a period of more than three years. Mrs. Blanchard says that after she had suffered unmentionable abuse, and had proof that her husband had been associating with women of ill repute. He put her on a train while they were living in New York city, and sent her home to her parents, since which time she has never seen him.

A Neglected Parent. J. W. Peltier, officer of the Humane Society, has filed a complaint in Probate court, against Wm. Tiptie, who he charges with neglect of his two children. The accused has a girl eight years of age, and a boy of five who have not been receiving proper care because of the alleged vagrancy and neglect of their father.

In Probate Court. Albert Barber, Jessie Thomas and Ernest Gardner have been bound over to the probate court by the mayor, to answer for malicious destruction of property. The complainant is E. Sheup, who charges them with destroying a bucket of paint valued at \$1. John H. Watkins, has been appointed administrator of the estate of Richard B. Watkins and gave bond in the sum of \$400.

## THE IDLER.

Among the many guests who thoroughly enjoyed the golden wedding anniversary of Mr. and Mrs. John Martin, at the home of their daughter, Mrs. Wallace Landis, on Collet street, and whose names were not given yesterday, were Judge R. ## CAR

Load of Railroad Officials

Arrived Today

On Inspection of the C. H. & D. Branches.

They Will Take Dinner at Deshler and Spend the Night in Toledo.

Only Half the Usual Time Will Be Given Owing to Importance of Being at Their Respective Posts.

A special train on the C. H. & D. from the south, arrived in Lima, at 10.10 this morning, and went direct to the shops in north Lima, where a score or more officials unloaded, and accompanied Supt. Cory through the different departments.

The train was made up of a special coach, the private car Paris and an inspection car, which the officials occupied when Lima was reached. All of the officials, from the general manager down, are included in the inspection trip, with the exception of those connected with the motive power department. The superintendents of the various divisions were on board, and are interested in making comparisons.

The Wellston division was inspected yesterday, the Cincinnati division today, and tomorrow morning, at 5.40, the party will return to Deshler and go to Findlay, thence to Fort Wayne. They will detour from there via of the Clover Leaf and take in the Delphos division to Dayton, afterwards doubling back to Hamilton and finishing with the Indianapolis and Springfield divisions in turn.

The fall inspection generally occupies two weeks, but one of the officials stated this morning that it was so important for the heads of the different departments to be at their post at this season of the year that they hope to get through with the inspection in 6 days. Only points known to be weak will be given special attention. The road is enjoying splendid business, and with the increased motive power, traffic is being handled to the satisfaction of everybody.

## OUCH!

Sidney Turns the Tables on Lima Bowlers.

Both Teams Who Went Down to Clinch a Victory Were Easily Defeated.

Two picked teams of bowlers went to Sidney yesterday in the hope of adding another victory to their string, but strange alleys and strange balls made the feat impossible, and they returned home to await vengeance on familiar ground. There were fourteen in the Lima party, and although they suffered defeat, they had a good time, the Sidney boys proving themselves royal entertainers. The following scores were made:

Lima.		
Reed	135	125 159
Hauenstein	140	148 153
Hackney	133	139 105
Manual	130	131 135

You Will Get "Bit" Every Time

That you shop for cheap drug, Cheapness is not a desirable quality in drugs or medicines. The thing to hunt for is QUALITY and you can get that all the time only at a drug store where quality is held to be the most important part of pharmacy. It may be possible that you overlook the fact that medicine often stands between life and death, therefore it is a question not how cheap, but how good.

We invite your prescription and other drug trade, and get the best that money can purchase.

## RARE OPPORTUNITY.

For musical and literary people of Lima, the following splendid course is offered for your pleasure and benefit. Each attraction is of the best.

John C. Weber's military band, Nov. 14, 1903. Everett Kemp, reader, Dec. 8, 1903. Dr. Eugene May, lecturer, Jan. 20, 1904. John R. Clark, lecturer, Feb. 2, 1904.

Hahn-Park Quintette, Mar. 30, 1904. Lima people are justly proud, and greatly interested in Mrs. Hahn, "the Miss Mame Davis," and will give her a warm greeting. The first number will be in the new Ohler Auditorium, thus affording the double attraction of a band concert and of seeing the magnificent successor to old Music hall. Seats on the main floor without extra charge. An admission of ten cents will be charged to the balcony, in addition to the price of ticket charged at the door. Course tickets on sale at Melville's drug store, for only \$1.00.
